

FLOW SYNERGY TECHNICS SDN BHD (CO NO 1011432-H)

Chemical Cleaning, Oil Flushing (NAS/ISO), Hydro Jetting up to 40 000PSI, Painting, High Pressure Flushing (Retro Jet & Roto Fan) Boiler & Heat Exchanger Repair, Refractory Repair, Tank Passivation & Pickling, All Marine & Industry Related Services.

HIGH PRESSURE HYDRO TESTING PUMP

Technical Specifications

Pump Brand	:	HAMILTON GD 64 (HT 03-17)
Working Pressure / Flow rate	:	7,270 psi (512bar) at 5litres /min
Air Driven Motor	:	GD 64 / G ½ @ 6 bars
Size	:	0.8in L × 0.8in W × 12.0in H
Weight	:	1.5 kgs
Features	:	<ul style="list-style-type: none">- Skid Mounted with base support- Separate Water tank- Air in let pressure gauge 6bar x 2 units- Water inlet pressure gauge 6bar x 2 units- Pressure outlet gauge 10 000psi x 2 units x 2 outlet- Pressure relive valve x HP v/v x 2 outlet- Air driven filter- Valve actuator control- Press Safety overload devices
